• Visual Studio Code • Android Studio
• Eclipse • npm • Postman • Git
• MongoDB Compass

SOFT SKILLS:
• Communication • Leadership
• Time Management • Adaptability
• Problem Solving • Teamwork
• Creativity

COURSEWORK

• Data Structures And Algorithms
• Operating Systems
• Design and Analysis of Algorithms
• Data Warehouse and Mining
• Database Management System
• Software Engineering

CERTIFICATES

• Full Stack MERN Development
• AWS Cloud Foundations
• Database Management System
• Java Certification
• Android App Development
• Getting Started with Competitive Programming

EXPERIENCE

GOVERNMENT OF ANDHRA PRADESH | FUTURE SKILLS EXPERT
22 Jan 2024 – 23 Apr 2024 | Visakhapatnam
- Played a pivotal role in the Andhra Pradesh government's Future Skills Expert Internship Programme, actively engaging with government schools to assess, enhance educational practices and promote digital education.
- Worked in tandem with educators to promote student engagement and enthusiasm in technology-led learning, all the while educating students and educators about the significance of future skills preparation.

FLUENTGRID LIMITED | JAVA DEVELOPMENT INTERN
01 June 2023 – 31 July 2023 | Visakhapatnam
- Attained extensive expertise in Java fundamentals, OOP, and data structures through 2 months of dedicated learning.
- Demonstrated proficiency in utilizing the **Spring MVC** framework to design and develop dynamic and scalable web applications.

IMMENSPHERE | ANDROID APPLICATION DEVELOPMENT INTERN
01 Apr 2022 – 31 May 2022 | Remote
- Acquired fundamental knowledge in Mobile Application Development, and actively contributed to cross-platform application development using **Flutter**.
- Collaborated on Flutter-based cross-platform app development, actively engaging in feature implementation, code reviews, and optimization efforts.

PROJECTS

ECOMMERCE FRONTEND APPLICATION
- Successfully developed a responsive and dynamic frontend application utilizing the **React-Redux** template.
- Deployed application data on **render.com**, ensuring seamless accessibility.
- Implemented efficient data fetching through the utilization of Custom Hook APIs, enhancing the application's performance and responsiveness.

RESUME BUILDER
- Designed and created a Resume Builder website using **React.js**, showcasing proficiency in building interactive and user-friendly web applications with a modern JavaScript library.
- Implemented responsive design principles with **custom CSS**, ensuring an optimal user experience across various devices and screen sizes.
- Prioritized user-centric features, resulting in an intuitive and visually appealing interface.

PORTFOLIO
- Crafted and developed a personalized portfolio using **React.js**, demonstrating a commitment to showcasing my works in an engaging and visually appealing manner.
- Optimized user engagement through strategic design choices and user-friendly navigation, resulting in 50% increase in user interaction and prolonged website visits
